Eurizon Capital SGR S.p.A. - Participation in General Meetings First Half of 2026

September 2026

EURIZON
ASSET MANAGEMENT

Eurizon Capital SGR (hereinafter also “Eurizon” or the “Company”) promotes dialogue with the companies in which it invests on behalf of the managed portfolios and participates in the relevant shareholders’ meetings, following a differentiated approach based on the materiality of the issuer, its reference markets and/or the specific circumstances, according to qualitative and quantitative criteria specified from time to time in the internal regulations (as detailed in the *“Strategy to exercise participation and voting rights inherent to the financial instruments pertaining to the managed assets of Eurizon Capital SGR S.p.A.”*, available on the Company’s website).

Based on a cost-benefit analysis that also considers the objectives and investment policies of the managed products, the Company has adopted differentiated preparatory and operational processes for the exercise of voting rights, depending on whether the meetings are:

− those deemed most relevant, on the basis of one or more quantitative and qualitative criteria;
− other meetings for which the Company makes use of electronic voting (so-called proxy voting).

With reference to the UCITS managed by Eurizon Capital SGR, it should be noted that, in the first half of 2026, the Company took part in 3,122 shareholders’ meetings of issuers. Of the total meetings voted, 188 were identified as the most relevant shareholder events. For the remaining 2,934 meetings, voting rights were exercised through the electronic voting process provided by the issuers. For this purpose, the Company relied on the Institutional Shareholder Services Inc. (ISS) platform, which enables an efficient voting process, particularly for foreign issuers.

Below is the list of shareholders’ meetings in which Eurizon participated on behalf of the managed UCITS, classified according to the relevance of the agenda items and the criteria applied.

PARTICIPATION IN SHAREHOLDER MEETINGS FOR WHICH THE COMPANY USES THE ELECTRONIC VOTING (PROXY VOTING)

Where deemed the most efficient approach in the interest of the managed portfolios, and where the qualitative and quantitative criteria for identifying the most relevant shareholder meetings (as detailed above) are not met, Eurizon exercises its voting rights through the electronic voting process made available by issuers. For this purpose, the Company relies on an electronic platform that streamlines the voting process, particularly for foreign issuers. In such cases, voting instructions are defined on the basis of specific guidelines approved by the Board of Directors, upon proposal by the Chief Executive Officer and General Manager within the Environmental, Social and Governance Committee ("ESG Committee").
