INDEPENDENT AUDITOR OF THE INVESTMENT FUND AND OF THE MANAGEMENT COMPANY**Ernst & Young S.A.**

35E, avenue John F. Kennedy
L-1855 Luxembourg (Grand Duchy of Luxembourg)

CONSTITUTION

Epsilon Fund (the “Fund”), was created in the Grand Duchy of Luxembourg on 21 April 2008 in the form of a mutual investment fund in transferable securities governed by the Laws of Luxembourg, and is currently, subject to Part I of the Law of 17 December 2010 on undertakings for collective investment (“UCI”) as amended.

The management regulations (the “Management Regulations”), after having been approved by the Board of Directors of the management company Eurizon Capital S.A. (the “Management Company”), have been initially signed by State Street Bank, the former Depositary Bank, on 21 April 2008 and the notification of the filing with the Registre du Commerce et des Sociétés in Luxembourg has been published in the Mémorial, Recueil Spécial des Sociétés et Associations on 8 May 2008. The informing of the deposit with the Registre du Commerce et des Sociétés in Luxembourg of amended version of the Management Regulations were published in the Mémorial, Recueil Spécial des Sociétés et Associations until 31 May 2016 and on the official electronic platform Recueil Electronique des Sociétés et Associations as from 1 June 2016. The Management Regulations in force have been filed with the “Registre de Commerce et des Sociétés” in Luxembourg, where they may be consulted, and where copies can be obtained.

The Fund has been established for an indefinite period.

The Fund is an umbrella fund. The Sub-Funds which are active on 31 December 2022 are listed below:

Epsilon Fund - Euro Cash
Epsilon Fund - Emerging Bond Total Return
Epsilon Fund - Euro Q-Equity
Epsilon Fund - Q-Flexible
Epsilon Fund - Euro Bond
Epsilon Fund - Enhanced Constant Risk Contribution
Epsilon Fund - Absolute Q-Multistrategy
Epsilon Fund - Emerging Bond Total Return Enhanced

The Sub-Fund Epsilon Fund - Euro Cash was launched on 20 May 2008.

The Sub-Fund Epsilon Fund - Emerging Bond Total Return was launched on 27 May 2008.

The Sub-Fund Epsilon Fund - Euro Q-Equity was launched on 3 June 2008.

The Sub-Fund Epsilon Fund - Q-Flexible was launched on 28 July 2008.

The Sub-Fund Epsilon Fund - Euro Bond was launched on 5 May 2008.

The Sub-Fund Epsilon Fund - Enhanced Constant Risk Contribution was launched on 3 October 2014.

The Sub-Fund Epsilon Fund - Absolute Q-Multistrategy was launched on 24 November 2016.

The Sub-Fund Epsilon Fund - Emerging Bond Total Return Enhanced was launched on 11 September 2017.

The Sub-Fund Epsilon Fund - European Q-Equity was merged into Epsilon Fund - Euro Q-Equity on 31 May 2019.

The different Units which are available to investors for all Sub-Funds are detailed in note 10 “Units of the Fund” of the notes to the financial statements.

GENERAL MEETING

The Annual General Meeting of the Management Company takes place every year at the registered office, or at any other location in Luxembourg, specified in the convening notice within six months of the end of each financial year.

INFORMATION FOR FUND UNITHOLDERS

Copies of audited annual reports as at 31 December and copies of unaudited semi-annual reports as at 30 June and copies of the prospectus are available free of charge to Unitholders at the Depositary Bank, other establishments specified by the latter, and at the registered office of the Management Company.

The periodic reports contain all information relative to the Fund, to the composition and development of its assets.

The financial year begins on 1 January and ends on 31 December.

The Net Asset Value as well as the subscription and redemption prices of the Fund Units can also be obtained from the Depositary.

Other information intended for participants is published in the "Mémorial, Recueil des Sociétés et Associations" and in the "Registre de Commerce et des Sociétés" in Luxembourg, if this publication is specified by the Management Regulations or by Law.

GLOBAL RISK EXPOSURE (UNAUDITED)

The method used to calculate the global risk exposure is the commitment approach for all Sub-Funds.

REMUNERATION POLICY (UNAUDITED)

The Remuneration Policy of Eurizon Capital S.A. (hereinafter also referred as the "Company") is based on the principles applied in the Intesa Sanpaolo Group including:

- alignment with the interests of shareholders, customers and their assets under management, the medium and long term strategies and objectives, under a framework of reference rules aimed at avoiding conflict of interests, and at the proper control of current and future business risks and ensuring an adequate level of liquidity and capitalization;

- consistency with and promotion of sound and effective risk management and discouragement of risk-taking which is inconsistent with the risk profile, rules or instruments of incorporation of the assets managed;

The Remuneration Policy has been prepared on the basis of the Intesa Sanpaolo Group's remuneration policies and, for what is not in conflict, not governed or more restrictive, in compliance with European and national regulations governing the asset management industry:

- the Law of 12 July 2013 on alternative investment fund managers (transposing the EU Directive 2011/61/EU - the AIFM Directive), and

- the Law of 17 December 2010 relating to undertakings for collective investment (transposing the EU Directive 2014/91/UE - the UCITS V Directive).

Governance Structure

All incentives and reward systems for the Company's personnel are subject to the following types of conditions:

- activation conditions for the Group and the Company, consisting of liquidity, capitalisation and financial parameters;

- financing conditions of the mechanism of bonus funding for the Group and the Company, according to a top-down approach such as to take into account the exceeding of certain liquidity, capitalisation and financial parameters, in the first place at the level of the Group and, therefore, of the Company;

- individual access condition, meaning the level of achievement of the individual performance objectives, subject to the verification of the absence of individual compliance breaches. The individual performance objectives include financial as well as non-financial criteria.

The Board of Directors of the Company establishes and reviews annually the Remuneration Policy of the Company and ensures consistency with the overall policy of the Company in terms of risk-taking, the strategy and long-term, corporate governance structure and internal control objectives. It involves the Conducting Officers, each for their own responsibilities, in the definition and implementation of the Remuneration Policy.

The Company decided to entrust the Independent Directors Committee with the advisory and consulting functions aimed to support the Board of Directors in all activities relating to remuneration, defined in accordance with the principles set out in the ESMA Guidelines on sound remuneration policies (ESMA 232/2013 and 411/2016). The Committee is entirely composed of independent members. External persons can still participate in the meetings of the Committee in relation to specific items.

The internal process related to the governance of remuneration involves the Human Resources, the Risk Management, the Compliance and the Operations & Finance departments, each under the supervision of the respective Conducting Officer.

The Corporate Control Functions verify, for each area of competence (Risk Management, Compliance, Internal Audit), the alignment of the remuneration practices with the approved policy and the applicable regulations.

The ex-ante annual independent internal review of the remuneration system concluded its design to be appropriate.

Compensation Structure

The compensation of personnel includes:

- Fixed component, defined on the basis of the contractual category, the role held and the extent of responsibilities, reflecting the experience and skills required, as well as the quality of the contribution to corporate results;
- Variable component, linked to employee's performance and aligned with the annual results actually achieved and the risks prudentially assumed.

The criteria for the definition of the Company incentive systems, in application of the Intesa Sanpaolo Group's remuneration policies, aimed at ensuring the correlation between remuneration, performance and risks are, among others:

- the measurement of performance from multiple perspectives in order to align the management and employees behaviour to medium and long term strategic drivers, both quantitative (profitability, growth, productivity, cost of risk / sustainability) and qualitative (strategic actions or projects and managerial quality), on different perimeters (Group / Structure / Individual);
- the principle of selectivity, by differentiating the best performances and assigning higher bonuses;
- the principle of financial sustainability, by the definition of a bonus pool correlated to the performance of a Group parameter, currently identified as Income before tax from continuing operations and the use of a solidarity mechanism, according to which the amount of total bonuses paid to the employees of each Business Unit depends in part on the Group's overall performance (reflected in the size of the bonus pool) and in part on the degree of expected contribution to the Group's results;
- the definition of target bonus for roles and professional clusters to be used across all Group, in order to guarantee internal balance and the ongoing benchmarking between roles and/or professional clusters Group target bonuses and external market practices;
- the verification of the so-called individual compliance breaches as a restriction to bonus accrual (disciplinary measures, serious findings received from the Bank's control functions, sanctions by the Supervisory Authorities).

Vesting of the variable remuneration for Risk Takers is governed by specific rules in terms of:

- Deferral mechanisms
- Payment partly in cash and partly in instruments and retention period for Units/Shares of funds;
- Ex-post adjustment mechanisms - malus or clawback.

Compensation for 2022

In accordance with the Law as of 17 December 2010 on Undertakings for Collective Investments (as subsequently amended) in conjunction with the guidelines on sound remuneration policies under UCITS published by the European Securities and Markets Authority (ESMA), the Company has identified individuals who have a material impact of the Company's risk profile (Material Risk Takers).

The regulations provide rules in relation to the variable component of the compensation of Risk Takers, indicating that:

- at least 40% of the variable component (60% for significant bonuses) must be subject to deferred payment for a period of 3 years (5 years for significant bonuses);
- a substantial portion (at least 50%) is paid out in Units/Shares of funds managed by the Company, or equivalent instruments; said percentage is applied, in the same proportion, to both the deferred and upfront portions of the variable component;
- there is a specific holding period (of no less than 2 years for the upfront component, and shorter for the deferred portion) for the vesting of the financial instruments referenced above.

In case the Variable Compensation is lower than EUR 80 000, the Material Risk Takers receive their entire Variable Compensation in cash without any deferral.

The following aggregate compensation has been paid by the Company to its Material Risk Takers and Other Staff in 2022 (in EUR) in relation to all its activities:

Number of employees on an annual average: 72,3

Total Compensation: 9 373 163

Fixed Pay: 8 188 857

Variable Compensation: 1 184 306

Total Compensation for Material Risk Takers (including Senior Management): 2 493 623

Total Compensation for Other staff: 6 879 540

In addition to the compensation paid by the Company to its Material Risk Takers and Other Staff, as reported above, the aggregate remuneration paid to their own staff by the Investment Managers delegated by the Company to manage some Sub-Funds of the Fund has been estimated at EUR 2 229 704,87 based on the latest available annual accounts of these companies.

BOARD OF DIRECTORS OF THE MANAGEMENT COMPANY'S REPORT ON THE MANAGEMENT OF THE FUND

Dear Unitholders,

In 2022 all major Countries in the world experienced tighter monetary policies designed to tackle the high level of inflation, that bottlenecks related to the consequences of the pandemic on the international logistics system had been generating since the end of 2021, and the impressive range of fiscal expansion measures taken to support recovery, The exception was China which had already introduced monetary restriction measures during 2021, while in 2022 it gradually restored stimulus to the economy held back by new waves of infections,

The effects of the Russian invasion of Ukraine, occurred in February, also contributed to the upsurge in inflation, The transformation of the supplies of gas, oil and raw materials from Russia to Europe into negotiation weapons had a share in the rise in prices, To this should be then added the uncertainty linked to the Chinese policies regarding the control of new Covid infection waves, Over the course of the year, China gradually eased its zero-Covid policy, which provided for repeated lockdowns, thus leaving room for a significant increase in infections,

In this context, the global stock market recorded in 2022 a loss of 16,0% in local currency (MSCI World Index) and of 12,8% in EUR, The US stock market (MSCI USA Index) was affected by the significant tightening of the Federal Reserve ("Fed", the US Central Bank), showing a decline by 19,8% in local currency and 14,6% in EUR, The rise in rates aimed at containing inflation was the main cause of the negative balances that were also recorded by the other major world stock exchanges, as in the case of the Euro area where a loss of 12,5% was highlighted (MSCI EMU Index), In aggregate, emerging markets were also negative, with the MSCI Emerging Markets Index posting a return of -15,5% in local currency and -14,9% in EUR, The emerging-area markets suffered in Asia as a result of the Chinese slowdown and in Latin America from the tight monetary policies,

On the bond markets, the government components experienced negative returns, with rates reflecting the restrictive policies of the central banks, In the United States, the 2-year yield, as a result of the 425 basis points rate hikes decided by the Fed, went from 0,73% to 4,43%; the 10-year rate rose from 1,51% to 3,87%, reflecting on the one hand the restrictive policy of the US Central Bank and on the other the uncertainty linked to the stability of the economic recovery, 2022 ended, in fact, with a strongly inverted US rate curve (i.e., with the rate level on the short-term part higher than that of the long-term part), A similar trend appeared in the curve of the European rates; the German 2-year rate went from -0,62% to 2,76% and the 10-year one from -0,18% to 2,57%, Even the European Central Bank ("ECB"), although a few months behind the Fed, tightened its monetary policy by introducing overall increases by 250 basis points, The Fed and the ECB both ended 2022 by slowing down the pace of increases in the light of a marginal decline in inflation; the European Monetary Institute, however, maintained a particularly restrictive message on future development, highlighting the need for a steady rate increase, with a still far off pause, The "aggressive" message of Christine Lagarde (President of the European Central Bank) related to the ECB lagging behind the Fed,

The Italy–Germany spread (i.e, the interest differential) on the ten-year maturity began 2022 at 135 basis points to reach a level of 214 basis points at the end of the reference period, All in all, it was a rather orderly development considering it was a year in which Italy called for early elections, moving from a Draghi-led technical government to a centre-right political government, This was combined with the loss of part of the ECB support, which announced the reduction in purchases of securities introduced during the pandemic crisis, The market confirmed a close attention to the evolution of the macro-Italian framework, but highlighted no idiosyncratic theme related to the country where the Fund's Management Company's (hereinafter also referred as the "Company") sole shareholder and the Company's ultimate parent company is based,

In summary, in 2022 the global government bond market (JPM Global index) recorded a performance in local currency of -13,0% (-11,9% in EUR), The Eurozone (JPM EMU) recorded -17,9%, the US market (JPM USA) recorded -12,2% in local currency (-6,4% in EUR) and the Emerging Countries (JPM EMBI+) showed a decline of 24,7% (-19,7% if converted into EUR),

In the currency market, the dollar was in constant appreciation, continuing the trend started in 2021, In a context of great uncertainty arising from the high level of inflation and the vigorous reaction of the central banks, the US currency went from 1,13 to 1,06 against the euro, even touching 0,95 in greater uncertainty moments and upon some interventions by the Fed concerning very broad and sudden rate hikes, Considering the movements of the euro, the common currency weakened by 6,15% against the dollar and by 4,7% against the Swiss franc, while it strengthened by 7,5% against the yen and 5,7% against the pound sterling,

Activity of the Fund

As of 31 December 2022, the mutual investment fund Epsilon Fund was composed of **8** Sub-Funds for an overall value of € 10 039 709 004,18, including 5 Sub-Funds categorised as articles 8 according to Sustainable Finance Disclosure Regulation (SFDR), representing about 90% of Epsilon Fund net assets,

The annual in- and outflows as well as the net assets as of 31 December 2022 of each Sub-Fund are shown in the following table (in EUR), which encompasses each Class of Units :

DENOMINATION OF THE SUB-FUNDS	SUBSCRIPTIONS	REDEMPTIONS	NET ASSETS
Epsilon Fund - Absolute Q-Multistrategy	253 463,00	(32 397 280,68)	35 175 142,94
Epsilon Fund - Emerging Bond Total Return	555 723 979,58	(1 859 908 029,45)	1 730 280 464,48

Epsilon Fund - Q-Flexible	I	-12,89%
Epsilon Fund - Q-Flexible	R	-13,92%
Epsilon Fund - Q-Flexible	RD	-13,91%

Russia / Ukraine conflict

The direct exposure of the products established by the Company to Russia, Belarus and Ukraine securities was relatively low at the beginning of Russia's invasion of Ukraine on 24 February 2022, with no Sub-Fund reporting an exposure in excess of 5% of its total net assets. Nevertheless, Eurizon Capital S.A. closely monitors the evolution of international sanctions, operational restrictions and disruptions relating to the Russian securities and markets as they adversely impact, or could impact, the ability of these Sub-Funds to operate on such securities and/or related local cash accounts. Liquidity and valuation issues related to these securities are monitored on a continuous basis by the Company so as to ensure the interests of the investors are preserved. In particular, as at 31 December 2022, certain securities are valued on the basis of fair valuation procedures, which may result in such securities being deemed to have a near-zero or zero value,

Participation and voting rights in Shareholders' Meetings

Eurizon Capital S.A. believes that good standards of governance contribute to promote confidence in the capital market and that the role played by institutional investors, asset managers and their advisors is fundamental in the internal dialogue of the investee companies. The Company has a fiduciary commitment aimed at protecting and creating value for its Clients and Investors, which requires it to effectively address issues related to the corporate performance of the companies in which it invests on behalf of the assets under management. In this context, the Company attaches importance to the supervision of the so-called "external corporate governance", understood as corporate governance in relation to issuing companies. The Company gives particular attention to the policies implemented by issuers in which it invests on behalf of the products it manages, in the belief that sound corporate governance policies and practices (incorporating environmental, social and governance issues) are able to create long-term shareholder value. The Company has also adopted a methodology for the selection of financial instruments that takes into account the principles of Sustainable and Responsible Investments (SRI),

The Company has adopted specific organisational and/or procedural measures in order to guarantee, in the presence of the discretionary attribution of the exercise of voting rights relating to the shareholdings "managed" by the Company, independence and autonomy in the exercise of participation and voting rights. Consequently, the Company has made available to investors a specific "Strategy for the exercise of participation and voting rights attached to the financial instruments held in the managed UCITS". The Strategy defines a set of procedures and measures for/to:

- monitor corporate events related to the financial instruments in the portfolio of the managed UCIs, where required by the characteristics of the financial instruments incorporating the rights to be exercised;
- assess the modalities and timing for the possible exercise of participation and voting rights, based on a cost-benefit analysis that also takes into account the investment objectives and policy of each managed UCI,

In this context, the Company adopts a "targeted" approach to corporate governance, favouring - in application of the principle of proportionality - participation in Shareholders' Meetings and engagement with companies considered "relevant" according to qualitative/quantitative criteria specified in internal regulations:

- participation in the shareholders' meetings of those companies in which significant shares of capital are held, as identified from time to time in company procedures, interacting with the Board of Directors;
- participation in Shareholders' Meetings considered relevant in the interest of the assets managed in order to discourage situations of particular interest, in protection or support of the interests of minority shareholders;
- contribution to the election of statutory auditors or directors through the list voting mechanism, representing minority shareholders;
- participation in Shareholders' Meetings at which extraordinary transactions are approved if, depending on the interests of the assets under management, participation is necessary to support or oppose the proposed transaction,

In the reference period (1 January 2022–31 December 2022) the Company took part to 115 shareholders' meetings of selected companies listed on the Italian Stock Exchange (30%) and on international markets (70%), voting on 1156 resolutions on the agenda on behalf the investment funds it manages, For more information regarding the participation at Shareholders Meetings the list of Portfolio, the voting instructions and outcomes, please refer to the "Report on participation at shareholder meetings of companies with securities under portfolios of Eurizon Capital S.A." available at <https://www.eurizoncapital.com/en/sustainability/stewardship-and-esg-engagement-policy>

Independent auditor's report

To the Unitholders of
Epsilon Fund
28, boulevard Kockelscheuer
L-1821 Luxembourg

Opinion

We have audited the financial statements of Epsilon Fund (the "Fund"), and of each of its sub-funds which comprise the statement of net assets, the portfolio, the commitments on future contracts, the option contracts, the forward foreign exchange contracts and the swap contracts as at 31 December 2022, and the statement of changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Management Company of the Fund (the "Board of Directors") is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors for the financial statements

The Board of Directors is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1. ACTIVITY

Epsilon Fund (hereafter referred to as the "Fund") was established in the Grand Duchy of Luxembourg on 21 April 2008 in accordance with Part I of the Law of 20 December 2002 as amended on Undertakings for Collective Investment ("UCI"). The Fund was governed by Part I of the Law of 20 December 2002 as amended until 30 June 2011. Since 1 July 2011 the Fund is governed by the Luxembourg Law of 17 December 2010 on UCI as amended. The Fund, by virtue of being a common fund in transferable securities, does not possess legal personality.

The Fund is a joint ownership of transferable securities and other financial assets as authorized by the law, managed by the Management Company on the basis of the risk spreading principle, on behalf of and in the sole interest of the co-owners (the "Unitholders"), who are committed only to the extent of their investment.

Its assets are owned jointly and indivisibly by the Unitholders and constitute a holding separate from the Management Company's holdings. All of the jointly owned Units have equal rights. There is no maximum limit set on the amount of wealth or the number of Units of jointly owned property which comprise the net assets of the Fund. The minimum net assets of the Fund are to be at least EUR 1 250 000,00.

The respective rights and obligations of the Unitholders, the Management Company and the Depositary Bank are defined in the Management Regulations and laws. By agreement with the Depositary Bank and pursuant to the Laws of the Grand Duchy of Luxembourg, the Management Company may make amendments in the Management Regulations if it considers useful for the interest of Unitholders. These amendments are published in the "Mémorial, Recueil des Sociétés et Associations" and, in principle, become effective as of the time of their publication.

In order to offer investments with different levels of risks, Epsilon Fund is subdivided into a range of Sub-Funds.

The Board of Directors of the Management Company decided in 2017 that the financial year of the Fund will not end any longer on 31 March, but on 31 December of each year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Fund keeps the books of each Sub-Fund in its respective currency and the financial statements were prepared in EUR in accordance with the Luxembourg regulations relating to Undertakings for Collective Investment and in particular using the following valuation rules:

a) Valuation of investment securities

Investment securities, including zero-coupon bonds and money market instruments, quoted on an official stock exchange or on another regulated market are valued according to the last known price and, in the event of being quoted on several markets, according to the last known price of the principal market.

Valuation of investment securities, including zero-coupon bonds and money market instruments, not quoted on an official stock exchange or on another regulated market, is fixed in a reasonable way on the basis of the sale prices anticipated cautiously and in good faith, or in the absence of a market value, according to the probable value in the reasonable estimation of the Board of Directors of the Management Company.

Liquid asset, short-term money market instruments or any short-term debt or debt-related instruments are valued at nominal value plus any accrued interest or on a amortised cost basis, provided a regular review of the portfolio holdings is performed to detect any material deviation between the net assets calculated using these methods and these calculated using market quotations. If a deviation exists, which may result in a material dilution or unfair result to Unitholders, appropriate corrective actions will be taken including, if necessary, the calculation of the net assets value by using available market quotations.

The value of each investment in open-ended investment funds, either listed or not, is based on the last known Net Asset Value on the Valuation Day.

b) Net realised profit / (loss) on sales of investments

Realised profits or losses made on the sales of investments are calculated according to the average weighted cost.

c) Cost of purchase of securities in portfolios

For securities in currencies other than the base currency of the Sub-Fund, the purchase price is calculated based on the exchange rates prevailing of the day of the purchases.

d) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward foreign exchange rates for the remaining period to run until maturity at the date of valuation.

Unrealised profits and losses are recorded in the Statement of Net Assets and their variations are recorded in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on forward foreign exchange contracts".

e) Future contracts

Commitments related to future contracts are recorded off balance sheet and future contracts are valued according to the last available contract price.

Unrealised profits and losses on future contracts are recorded in the Statement of Net Assets and their variations are recorded in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on future contracts".

Guarantee deposits and margin calls are recorded under the Statement of Net Assets under the headings "Other banks and broker account" and "Amounts due to brokers".

f) Swap contracts

Swaps are, in general, contracts by which two parties commit themselves during a given period to exchange two flows, one in exchange for the other, determined on the basis of a nominal value. The flows may be linked to the interest rate(s), exchange rate(s), share(s), index(es) or credit event(s).

Swap contracts are valued using the difference between the values of forecasted flows the counterparty is to pay to the Sub-Fund and those owed by the Sub-Fund to its counterparties.

Unrealised profits and losses on swap contracts are recorded in the Statement of Net Assets and their variations are recorded in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on swap contracts".

The caption "Swap premium received" and "Swap premium paid" of the Statement of Net Assets correspond to the amount paid or received by the Fund when contracting a credit default swap. This amount stands for the cost of the relating swap contracts.

Swap contracts are presented at clean price in the Statement of Net Assets.

g) Option contracts

Option contracts quoted on an official stock exchange or on another regulated market are valued according to the last known market price or, if there are several markets, according to the last known price of the principal market.

Option contracts not quoted on an official stock exchange or on another regulated market are valued at their last known market value or, in the absence of a market value, according to their probable market value in the reasonable estimation of the Board of Directors of the Management Company.

Premiums received on the written option contracts are recorded at market value as liabilities and premiums paid on purchased option contracts are recorded as assets. Unrealised profits and losses on option contracts are recorded in the Statement of Net Assets and their variations in the Statement of Changes in Net Assets under the heading "Change in unrealised appreciation / (depreciation) on option contracts".

In the case of options on futures, no premium margin is required because here a daily profit and loss adjustment (variation margin) is made by the procedure known as "marking-to-market". The profit of one party to the contract is the loss of the other party. The resulting gains and losses are either debited or credited to the appropriate account on a daily basis via the mark-to-market process.

The final valuation is made at the final settlement price of either the expiration date of the option or the day on which it was exercised.

h) Combined statements of the Fund

The combined statements correspond to the sum of the statements of each Sub-Fund.

i) Income

Dividends are recognised on the date on which the shares / units concerned are quoted "ex-dividend", net of withholding tax. Interest is calculated on a pro rata temporis basis and recorded net of withholding tax.

j) Translation of items expressed in foreign currencies

Assets and liabilities in foreign currencies are converted into the base currency of the Sub-Funds at the closing exchange rates of the final day of the financial year.

Income and expenses in currencies other than the base currency of the Sub-Funds are converted into the currency of the Sub-Funds at the closing exchange rates in force on the day of the transactions.

The resulting realised and unrealised profit or loss made on foreign exchange is included in the Statement of Changes in Net Assets; any unrealised profit or loss on currencies of foreign cash positions, assets receivable and liabilities payable denominated in currencies other than the base currency of the Sub-Funds being recorded under the heading "Change in unrealised appreciation / (depreciation) on foreign currencies".

The main exchange rates as at 31 December 2022 are:

1 EUR =	189,025366387 ARS

1 EUR =	19,978377525 TRY
1 EUR =	1,067249527 USD
1 EUR =	18,159250705 ZAR

k) Basis of preparation

These financial statements have been prepared on a going concern basis.

l) Swing Pricing

On business days when the net number of a fund's units purchased or redeemed exceeds 2% of the fund's total net assets, the management company may value that fund's assets at offer price or bid price, respectively. This adjustment reflects an assessment of the overall costs incurred in buying and selling investments to satisfy purchases or sales of units (understanding that a fund generally maintains adequate daily liquidity to handle ordinary cash flows with little or no impact on ordinary investment operations).

This mechanism was not activated until 31 December 2022.

m) Valuation of instruments in the Money Market Fund

As regards the valuation of the assets of the Sub-Fund authorised as a money market fund in accordance with Regulation (EU) 2017/1131 of the European Parliament and of the Council of 14 June 2017 on money market funds, such assets are valued by using mark-to-market method (means the valuation of positions at readily available close out prices that are sourced independently, including exchange prices, screen prices, or quotes from several independent reputable brokers) whenever possible.

When using mark-to-market method:

- such assets are valued at the more prudent side of bid and offer unless the asset can be closed out at mid-market;
- only good quality market data are used; such data are assessed on the basis of all of the following factors:
 - the number and quality of the counterparties;
 - the volume and turnover in the market of the asset of the money market fund;
 - the issue size and the portion of the issue that the money market fund plans to buy or sell.

The Net Asset Value of any Unit Class in the Sub-Fund authorised as a money market fund shall be calculated at least daily and rounded to the nearest basis point or its equivalent when the Net Asset Value is published in a currency unit.

The following Sub-Fund has been identified as falling under the scope of the Money Market Fund Regulation (EU) 2017/1131 (the "Regulation") and accordingly fulfill the requirements of the Regulation:

Sub-Fund	Type of MMF	Impact on the pricing policy
Epsilon Fund - Euro Cash	Standard Variable NAV	No impact

n) Net Asset Value per Unit

The Net Asset Value of each Sub-Fund is equal to the difference between the total assets and the liabilities of the Sub-Fund.

The Net Asset Value per Unit is calculated by dividing the Net Asset Value by the number of Units outstanding on the day of calculation.

o) Contingent assets

As at 31 December 2022, some of the Sub-Funds of the Fund are involved in some collective legal actions ("Class Actions"). In the context of these procedures, these Sub-Funds could receive, with no certainty, compensations related to losses occurred in the course of previous financial years. As at 31 December 2022, the following procedures are pending:

Sub-Fund	Action name
Epsilon Fund - Enhanced Constant Risk Contribution	FACEBOOK, INC. (N/K/A META PLATFORMS, INC.)

As of 31 December 2022, some Sub-Funds of the Fund are involved in withholding tax reclaim procedures on the basis of the principles set forth in recent judgments by the European Court of Justice. In this context, the Sub-Funds listed hereunder could recover, with no certainty, unduly levied withholding taxes on dividends in the following jurisdictions:

SUB-FUNDS	COUNTRY
Epsilon Fund - Euro Q-Equity	Germany, Italy
Epsilon Fund - Q-Flexible	Italy
Epsilon Fund - Enhanced Constant Risk Contribution	Germany, Italy
Epsilon Fund - Absolute Q-Multistrategy	Germany, Italy

As of 31 December 2022, the Sub-Fund Epsilon Fund - Absolute Q-Multistrategy is involved in the assertion of claims arising from securities in the insolvency proceeding of Wirecard AG. In the context of this procedure, the Sub-Fund could receive, with no certainty, compensations related to losses.

3. BANKS, BANK OVERDRAFTS, OTHER BANKS AND BROKER ACCOUNTS

As at 31 December 2022, the counterparty for the "Banks" and "Bank overdrafts" accounts is State Street Bank International GmbH, Luxembourg Branch for all the Sub-Funds. The caption "Other banks and broker accounts" includes cash held with external banks and cash at broker accounts. As at 31 December 2022, the counterparties for the "Other banks and broker accounts" and "Amounts due from brokers" accounts are Bank of America Merrill Lynch Ltd, Barclays Bank Plc., Intesa Sanpaolo S.p.A., JP Morgan AG, Morgan Stanley and Société Générale SA. As at 31 December 2022, the counterparty for Other banks is Intesa Sanpaolo S.p.A.

4. SUBSCRIPTION TAX

The Fund is governed by Luxembourg tax laws applicable to investment funds. It is up to prospective purchasers of Units of the Fund to inquire about the laws and rules applicable to the acquisition, holding and possibly sale of Units, taking into account their residence or nationality.

As legislation now stands, the Fund is subject to a Luxembourg tax at an annual rate of 0,05% calculated on the Net Asset Value of each Sub-Fund at the end of each quarter in question and payable quarterly. The rate of the annual subscription tax is fixed at 0,01% for the Sub-Funds or Classes of Units reserved for one or more Institutional Investors, as well as for Sub-Funds whose exclusive aim is the collective investment in money market instruments and/or deposits with credit institutions.

The value of the assets represented by Units / Shares held in Luxembourg UCIs shall be exempt from the subscription tax, provided such UCIs have already been subject to the subscription tax in Luxembourg.

5. OTHER CHARGES AND TAXES

The caption "Other charges and taxes" is mainly composed of Paying Agent transactions fees and miscellaneous fees.

In accordance with the current Depositary Bank and Paying Agent convention, the Depositary Bank has received during the financial year, for all of the active Sub-Funds as at 31 December 2022, a global amount of EUR 3 218,14 or transaction fees registered in the Statement of Changes in Net Assets under the heading "Other charges and taxes" in relation to Paying Agent services.

The auditors fees, expenses involved in preparation, printing and filing of administrative documents and explanatory memoranda with any authorities and bodies, expenses related to preparation, distribution and publication of notices to Unitholders, including publication of Net Asset Value per Unit on newspapers distributed in countries in which the Units are offered or sold or on any other recognised and legally binding media, fees relative to registration with any institution or authority, and the fees relative to the Fund's listing on a stock exchange are borne by the Management Company.

6. MANAGEMENT FEE

The Management Company, as remuneration for its services, is entitled to receive a management fee calculated according to the Net Asset Value of each Sub-Fund of the Fund.

For the year ended 31 December 2022, the rates in force for each Sub-Fund are the following:

Sub-Fund	Annual management fee rates by Class of Units:							
	Class I	Class I2	Class I7	Class IU2	Class R	Class RD	Class E	Class X
Epsilon Fund - Euro Cash	0,14%	–	–	–	0,30%	–	–	–
Epsilon Fund - Euro Bond	0,25%	–	–	–	0,85%	0,85%	–	–
Epsilon Fund - Euro Q-Equity	0,60%	–	–	–	1,70%	–	–	–
Epsilon Fund - Emerging Bond Total Return	0,25%	0,25%	0,25%	0,25%	0,80%	0,80%	0,60%	0,50%
Epsilon Fund - Emerging Bond Total Return Enhanced	0,40%	–	–	–	1,00%	–	–	–
Epsilon Fund - Q-Flexible	0,50%	–	–	–	1,60%	1,60%	–	–
Epsilon Fund - Enhanced Constant Risk Contribution	0,75%	–	–	–	1,50%	1,50%	–	–
Epsilon Fund - Absolute Q-Multistrategy	0,40%	–	–	–	1,20%	–	–	–

This fee is calculated on the average value of the monthly Net Asset Value and payable monthly.

Investments done by each Sub-Fund in Units/Shares of UCITS and/or other UCI may lead investors to support twice certain expenses such as subscriptions fees, redemptions fees, administration fees and management fees.

The total amount of the management commissions applied on the "related" UCITS or UCI in which the Sub-Fund invests as well as the total amount of any rebates of the management commissions applied on UCITS or UCI managed by third companies are transferred to the Sub-Fund on a quarterly basis and registered in the Statement of Changes in Net Assets under the heading "Other income" as follows (in EUR):

Epsilon Fund - Emerging Bond Total Return	46 012,75
Epsilon Fund - Q-Flexible	1 232,76
Total	47 245,51

7. PERFORMANCE FEE

In addition, for the Sub-Funds Epsilon Fund - Euro Bond, Epsilon Fund - Euro Q-Equity, Epsilon Fund - Emerging Bond Total Return, Epsilon Fund - Emerging Bond Total Return Enhanced, Epsilon Fund - Q-Flexible, Epsilon Fund - Enhanced Constant Risk Contribution and Epsilon Fund - Absolute Q-Multistrategy the Management Company is entitled to receive a performance fee. Calculation methods of the performance fee are described in the prospectus appendices.

Performance fee accrued for the year ended 31 December 2022 are as follows (in EUR):

Sub-Fund	Share Classes	Fund Currency	Amount of performance fees in Fund Currency	% of the average NAV of the Share Class
Epsilon Fund - Euro Q-Equity				
	I	EUR	80,45	0,00
	R	EUR	230,11	0,00
Epsilon Fund - Q-Flexible				
	I	EUR	35,63	0,00
	R	EUR	1 363,36	0,00
	RD	EUR	0,01	0,00
Epsilon Fund - Enhanced Constant Risk Contribution				
	I	EUR	34,71	0,00
	R	EUR	17,76	0,00
	RD	EUR	0,84	0,00

8. ADMINISTRATION FEE

The administration fee is paid to the Management Company as the main entity with responsibility for operational, compliance, accounting and legal activities of the Fund. Out of this fee, the Management Company pays the services provided by the Administrative Agent, Depositary Bank, Registrar and Transfer Agent and the Paying Agent. This fee, which represents a percentage of the average net asset value of each Sub-Fund, is accrued daily and is paid each month in arrears.

9. SWAP CONTRACTS

The open positions as at 31 December 2022 are disclosed in the "swap contracts" sections of the relevant Sub-Funds and detailed below:

Credit Default Swap contracts

Sub-Funds	Currency	Counterparty	Index	Rate	Position	Notional amount
Epsilon Fund - Euro Bond	EUR	J.P. Morgan SE	iTraxx Europe Crossover Series 37 Version 1	Fixed 5.000%	L	2 500 000,00

11. UNITS OF THE FUND

The Unit Classes available as at 31 December 2022 are the following:

- Classes R, RD and E Units may be acquired by any investor. The subscription of Units in Classes R is subject to a minimum initial subscription amount equal to EUR 500,00 for each Sub-Fund except for the subscription of Units in Class E of the Sub-Fund Epsilon Fund - Emerging Bond Total Return which is subject to a minimum initial subscription amount equal to EUR 250 000,00.

- Classes I, I2, I7, IU2 and X Units may only be acquired by institutional investors ("Institutional Investors"). Such Institutional Investors include: insurance companies; asset management companies; credit institutions, banking foundations or other professionals in the financial sector acting on their own behalf or within the framework of a discretionary management mission on behalf of their clients, even private clients (in this case, however, the clients on whose behalf the credit institutions or other professionals in the financial sector are acting must not have a right of property claim against the Fund but only against the credit institutions or other professionals in the financial sector); undertakings for collective investment; territorial governmental units; holding companies, provided that they can justify their actual substance and have a structure and business activities of their own, separate from those of their shareholders, and that they have significant financial interests; and finally, holding companies known as "family companies", provided these are holding companies where a family or branch of a family has significant financial interests.

Classes R, E, I, I2, I7, IU2 and X Units allow for the accumulation of income, in other words full capitalization of the income accrued by investments made in each of the Fund's Sub-Funds.

Class RD Units allows for distribution of the income accrued by investments made in each of the FCP's Sub-Funds, in accordance with criteria specified in the section entitled "Dividend Policy" of the prospectus.

Unit Class	Available to	Minimum initial subscription amount	Minimum holding amount at umbrella fund level	Maximum commission on transactions	
				Emission	Redemption
R, RD	All Investors	EUR 500	none	4,00%	none
E	All Investors	EUR 250 000	none	none	none
X	Institutional Investors	EUR 3 000 000	EUR 3 000 000	none	none
I, I2, I7, IU2	Institutional Investors	EUR 3 000 000	EUR 3 000 000	none	none

12. TRANSACTION COSTS

For the financial year ended 31 December 2022, the Fund incurred transaction costs (composed of broker fees and stamp duties) relating to purchase or sale price of investment securities. These transaction costs are part of the acquisition cost / sale price of the related assets and, for the financial year from 1 January 2022 to 31 December 2022, amount as follows (in EUR):

Sub-Fund	Transaction costs
Epsilon Fund - Euro Cash	89 224,89
Epsilon Fund - Euro Bond	204,17
Epsilon Fund - Euro Q-Equity	169 371,36
Epsilon Fund - Q-Flexible	87,46
Epsilon Fund - Enhanced Constant Risk Contribution	9 360,94
Total	268 248,82

13. CHANGES IN THE COMPOSITION OF THE PORTFOLIO

The list of movements in the portfolio composition for the financial year ended at 31 December 2022 is available at the Management Company's registered office.

14. DIVIDEND DISTRIBUTIONS

Category RD Units of the Sub-Funds Epsilon Fund - Euro Bond, Epsilon Fund - Emerging Bond Total Return, Epsilon Fund - Q-Flexible and Epsilon Fund - Enhanced Constant Risk Contribution allow the distribution of dividends. During the financial year ended 31 December 2022, the following distribution occurred:

Sub-Fund	Class	Distribution Date	Amount per Unit in EUR	Currency	Total Amount
Epsilon Fund - Euro Bond	RD	26/01/2022	0,50	EUR	64,94
Epsilon Fund - Emerging Bond Total Return	RD	26/01/2022	0,50	EUR	18 754,20
Epsilon Fund - Q-Flexible	RD	26/01/2022	1	EUR	1 004,92
Total					19 824,06

15. RUSSIA UKRAINE CONFLICT

The direct exposure of the products established by the Company to Russia, Belarus and Ukraine securities was relatively low at the beginning of Russia's invasion of Ukraine on 24 February 2022, with no Sub-Fund reporting an exposure in excess of 5% of its total net assets. Nevertheless, Eurizon Capital S.A. (hereinafter also referred as the "Company") closely monitors the evolution of international sanctions, operational restrictions and disruptions relating to the Russian securities and markets as they adversely impact, or could impact, the ability of these Sub-Funds to operate on such securities and/or related local cash accounts. Liquidity and valuation issues related to these securities are monitored on a continuous basis by the Company so as to ensure the interests of the investors are preserved. In particular, as at 31 December 2022, certain securities are valued on the basis of fair valuation procedures, which may result in such securities being deemed to have a near-zero or zero value.

16. SUBSEQUENT EVENTS OCCURED AFTER THE YEAR END

Epsilon Fund - Euro Cash: effective from 27 March 2023 the SFDR category changed from Art 6 to Art 8.

SECURITIES FINANCING TRANSACTIONS REGULATION

The Securities Financing Transactions Regulation (SFTR) introduced disclosure requirements for securities financing transactions and total return swaps.

A securities financing transaction is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement,
- securities or commodities lending and securities or commodities borrowing,
- a buy-sell back transaction or sell-buy back transaction, or
- a margin lending transaction.

During the year ended 31 December 2022, the Fund did not use any instruments falling into the scope of SFTR.

SUSTAINABLE FINANCE DISCLOSURE REGULATION (SFDR)

For each Sub-Fund that has (E) environmental and (S) social characteristics and promotes investment into assets which follow good governance (G) practices in accordance with articles 8 and 9 of the Sustainable Finance Disclosure Regulation ("SFDR"), this part of the Annual Report gathers the periodic information set out according to the template provided in the SFDR regulatory technical standards.

For the rest of the sub-funds, Eurizon integrates sustainability risk analysis into its investment process pursuant to Article 6 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of November 27, 2019 (the "SFDR Regulation") on sustainability reporting in the financial services industry.

Without prejudice to the integration of sustainability risk analysis into the investment process, the sub-funds do not, however, promote the specific environmental objectives identified in Regulation (EU) 2020/852 of the European Parliament and of the Council of June 18, 2020 (the "Taxonomy Regulation") on the establishment of a framework to encourage sustainable investment and amending Regulation (EU) 2019/2088. In this context, it should be noted that the investments underlying this Fund do not take into account the European Union's criteria for environmentally sustainable economic activities.

At the end of year 2022 the following sub-funds are categorised article 8 under SFDR:

Euro Bond, Emerging Bond Total Return, Emerging Bond Total Return Enhanced, Euro Q-Equity, Q-Flexible

Product name: Epsilon Fund - Euro Bond

Legal entity identifier: 549300X4WXDSY506LR45

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 5.41% of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input checked="" type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated..

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its benchmark. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

- Fund: 6.63

- Benchmark: 6.50

The ESG score is calculated on a scale of 0 to 10

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- **...and compared to previous periods?**

Not Applicable

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas

- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

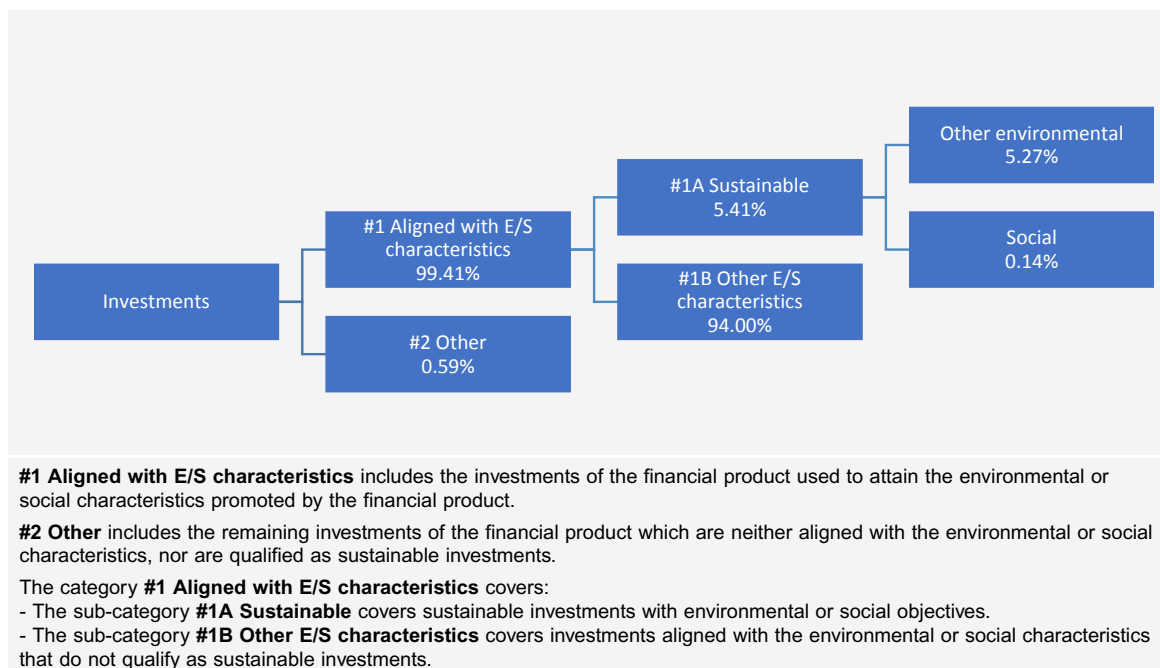

Largest investments	Sector	% Assets	Country
BUNDESSCHATZANWEISUNGEN BONDS REGS 06/24 0.2	GOVERNMENT	8.95	Germany

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

- **What was the asset allocation?**

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund has promoted environmental and/or social characteristics but has not committed itself to make sustainable investments within the meaning of art. 2(17) of Regulation (EU) 2019/2088.

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

☒ No

switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%

Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not Applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The fund has promoted environmental and/or social characteristics but has not committed itself to make sustainable investments within the meaning of art. 2(17) of Regulation (EU) 2019/2088.

However, the fund has invested in activities considered environmentally sustainable, which are entirely not aligned with the EU Taxonomy, to the extent of 5.27% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 0.14% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits.

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

● How does the reference benchmark differ from a broad market index?

Not Applicable

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not Applicable

● How did this financial product perform compared with the reference benchmark?

Not Applicable

● How did this financial product perform compared with the broad market index?

Not Applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name: Epsilon Fund - Emerging Bond Total Return

Legal entity identifier: 549300V0XHVHIIVFPN16

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ____% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 12.43% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : ____%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated..

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its investment universe. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoprovers.

- 0.08%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoprovers

- 0.21%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovder on the basis of environmental, social and governance profile of the investee companies

- Fund: 5.15

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Investment Universe: 4.77

The ESG score is calculated on a scale of 0 to 10

● **...and compared to previous periods?**

Not Applicable

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is:

What was the proportion of sustainability-related investments?

Asset allocation
describes the share of
investments in specific
assets.

● What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund has promoted environmental and/or social characteristics but has not committed itself to make sustainable investments within the meaning of art. 2(17) of Regulation (EU) 2019/2088.

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%

Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not Applicable

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The fund has promoted environmental and/or social characteristics but has not committed itself to make sustainable investments within the meaning of art. 2(17) of Regulation (EU) 2019/2088.

However, the fund has invested in activities considered environmentally sustainable, which are entirely not aligned with the EU Taxonomy, to the extent of 3.68% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 8.76% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits.

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

● How does the reference benchmark differ from a broad market index?

Not Applicable

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not Applicable

● How did this financial product perform compared with the reference benchmark?

Not Applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

<p><input checked="" type="radio"/> <input type="radio"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ____%</p> <p><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> It made sustainable investments with a social objective: ____%</p>	<p><input checked="" type="radio"/> <input type="radio"/> No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 57.18% of sustainable investments</p> <p><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input checked="" type="checkbox"/> with a social objective</p> <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>
---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its benchmark. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Fund: 7.76
- Benchmark: 7.55

The ESG score is calculated on a scale of 0 to 10

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to

<https://www.eurizoncapital.com/en/sustainability/stewardship-and-esg-engagement-policy>

● ...and compared to previous periods?

Not Applicable

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● How were the indicators for adverse impacts on sustainability factors taken into account?

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Sectoral exposure

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- ☐ Yes:
☐ In fossil gas ☐ In nuclear energy
☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
 Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not Applicable

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 22.32% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 34.86% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information on participation at shareholder meeting please refer to the "Report on participation at shareholder meetings of companies with securities under portfolios of Eurizon Capital S.A." available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-and-esg-engagement-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

● How does the reference benchmark differ from a broad market index?

Not Applicable

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not Applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**

Not Applicable

- **How did this financial product perform compared with the broad market index?**

Not Applicable

Product name: Epsilon Fund - Q-Flexible

Legal entity identifier: 549300BKM7JWV9U1UU78

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good Governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 29.06% of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input checked="" type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its investment universe. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Fund: 6.93
- Investment Universe: 6.51

The ESG score is calculated on a scale of 0 to 10

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to

<https://www.eurizoncapital.com/en/sustainability/stewardship-and-esg-engagement-policy>

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

- What was the asset allocation?

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas
 - ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not Applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 10.93% of total investments.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 18.13% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information on participation at shareholder meeting please refer to the “Report on participation at shareholder meetings of companies with securities under portfolios of Eurizon Capital S.A.” available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-and-esg-engagement-policy>

How did this financial product perform compared to the reference benchmark?
